It is important to provide the most accurate information available, as it is used by the Estimator to design Kaysville City Power and Light's facilities and determine the customer's costs. Please sign and date this form before giving it to your Estimator.

Customer Signature _____

Date _____

Note:

You may wish to consult a trained professional (electrician, engineer, etc.) prior to providing the information to your Estimator. Commercial metering can have many restrictions that should be discussed with the Estimator prior to the purchase and installation of your metering equipment. There are also restrictions regarding master metering. If your plans call for master metering, please discuss this with your Estimator.
